

I am a vocal artist who has made cd recordings and desire to have my music aired on the major radio stations owned by Clear Channel. However, these stations in the NJ,NY,PA area will not give radio access to artists who are not "signed" by the major labels. This is a typical "known" issue among the unsigned artist community. I believe there should be at least 1 or 2 hours of programming per day scheduled for the unsigned artists. Unequal access to the airwaves restrict the ability of all unsigned artists to market their work and consequently restrict us to underground and primarily unheard artists. Clear Channel and others like them, air the same signed artists 24/7 throughout the US. It's time to allow equal access to commercially sound unsigned artists.
